MEDICO-LEGAL EXPERIENCE

I have been involved in medico-legal work throughout my career since 1997. As a Consultant I have had a medico-legal practice since 1997, consulting in my private rooms on a twice weekly basis. I specialise in ENT and Head & Neck Surgery. Most of the legal work tends to be related to ear, nose and throat trauma, trauma of the head and neck, noise-induced deafness, tinnitus and industrial rhinitis. I have written extensively on these subjects and incorporate up-to-date literature references, when appropriate, to validate my opinion in these reports. I am familiar with the "Woolf" reforms and I am aware of my duty to the Court. My current fees, conditions of business and approximate appointment to report time are attached. I complete approximately 20 medical negligence reports per annum.

CLINICAL EXPERIENCE

I have been exposed to a wide variety of surgical and clinical dilemmas in ENT. I have experience in all aspects of otorhinolaryngology encompassing otology & audiology, rhinology & facial plastic surgery, paediatrics and laryngology. In 1996 I won the prestigious **TWJ Fellowship**. This entitled me to work with Professor Sean Sellars at the famous Groote Schuur Hospital in Cape Town, South Africa. I gained further experience, especially in trauma of the head and neck, otology, endoscopic sinus surgery and head & neck surgery.

Throughout my career I have been actively involved in the teaching of medical students, nursing staff, junior doctors and general practitioners; giving tutorials, formal lectures and seminars as well as clinical supervision.

ACADEMIC WORK

As a general principle and for the purpose of self-education, I have tried to keep my research as diverse as possible. I am an **Honorary Lecturer for the Faculty of Medicine at The University of Liverpool**.

I regularly lecture and am regularly invited as a speaker at national and international meetings for ENT/Head & Neck Surgery. I have written several chapters in UK national textbooks (Scott Brown's Otolaryngology and Stell & Moran's Head & Neck Surgery).

I am the first author of a textbook, **Key Topics in Otolaryngology** (published February 1995; 2nd Edition 2001, Bios Scientific Publishers, Oxford, UK) which has sold a record number of books for this series. It is sold in Singapore and South East Asia, India, Australia and New Zealand and is now developed for sale in the USA. It is a recommended text on many university booklists and fellowship courses around the country.

I am also author of a booklet, **Common ENT Disorders in General Practice** which I published in 2001.

RESEARCH

Research Grants

Awarded £100,000 for investigation of local side effects of inhalers in asthmatics. This enabled me to appoint a Research Fellow to UHA Trust in the ENT department. This generated several publications and international presentations. An MD thesis was awarded in 2012.

Chief investigator into the treatment of otitis externa with Tacrolimus. Research grant of £5000 from Astellas Pharma Ltd.

Research Reviews

Co-Author of Consensus Clinical Guidelines: Effective Head and Neck Cancer Management 1998 and 2nd edition 2002.

Doctoral supervisor and examiner (MD and PhD) on behalf of Liverpool University.

Reviewer for the National Journal Clinical Otolaryngology

Reviewer for European Archives of Otolaryngology and Head & Neck Surgery

Reviewer of the RC of Pathology guidelines for thyroid and parathyroid cancer on behalf of the British Association of Head and Neck Oncologists, 2006.
