

Dr Dana Shor

FRCR, MRCP UK, MBBS

Present Appointment

Clinical Oncology Consultant in lung, upper GI and cancers of unknown primary (CUP) malignancies

Cambridge University Hospital, Royal Papworth Hospital and GenesisCare.
July 2024 – present.

Clinical Interests

Dr Shor has a specialist interest in **lung cancers**, including both non-small cell and small cell malignancies, and **malignant mesothelioma**. Dr Shor is actively involved in the management of **upper gastrointestinal cancers**, including oesophageal, gastric, and small bowel tumours, and has significant experience in treating **CUP**.

Dr Shor is highly skilled in modern radiotherapy techniques, their expertise includes:

- Conventional radiotherapy
- **Stereotactic Ablative Radiotherapy (SABR)** for lung tumours and oligometastatic disease, including spine and bone metastases
- Advanced radiotherapy for **brain metastases**, including post-operative (PORT) cavity radiotherapy
- **Palliative radiotherapy**, focusing on symptom control and quality of life

Medico-Legal Experience

Dr Shor completed Bond Solon Expert Witness training in early 2026 and can provide reports on Breach of Duty, Causation, Condition and Prognosis, Tumour Doubling time and deals with issues around Standard of Care, across all specialist areas.

Dr Shor accepts approximately 20 – 30 cases per year.
